High Tensile Fasteners

Agpacks 1, 2, 3 and 4 High Tensile Bolt, Nut & Washer Assortments

Exafast's new Agpacks now come in a strong plastic tub with resealable lid, with the same great selection of bolts, nuts and washers inside.

Agpacks are better value than ever with pricing slashed and price breaks for quantity buys. There are four types of Exafast Agpack high tensile hexagon head bolt, nut and washer assortments available:

- **Agpack 1:** UNC bolt pack including nuts – Grade 5 and 8
- **Agpack 2:** UNC large size bolt pack including nuts – Grade 8
- **Agpack 3:** Metric bolt pack including nuts in metric size – Class 8.8
- **Agpack 4:** Flat round and spring washers

All bolts, nuts and washers are zinc plated for superior corrosion resistance and are supplied in inner sealed and labelled plastic bags per size of bolt or nut.

Agpacks include the bolts, nuts and washers most commonly found in rural and agricultural machinery. Don't risk costly downtime for the want of the right bolt or nut. An Agpack could be your best value-for-money investment.

TIP: Keep one in the shed and one in the ute
