

## Fastener Kits & Assortments

# Fastener Assortments

High Quality, Great Value Kits

Exafast Exakit Assortment Kits are available in many product configurations covering the most commonly used fasteners.

Exakits offer popular product options packaged in robust and compact polypropylene cases for easy access and use. The high quality, Australian designed range is presented in bright, color coded packaging with full visibility of the contents. All products are batch tested for quality and suitable for industrial, trade and home use.

The Exakit range can stand alone or be integrated into our modular Flexakit retail solution. Exakits can also be customized with your own brand and colors, and packed with any range of fasteners or other suitable product.
